Practicum Exam Codes

In an effort to be as transparent as we can be without compromising the integrity of the NCIDQ exam, we have developed this Code document in order for you to know what to expect on exam day. Below is the Table of Contents for the NCIDQ Exam based on the International Building Code (IBC)(2018) and Related Codes. The actual exam document will include the content directly from the IBC for each of the Chapters/Sections identified below (minus any images). The Building Code document will be provided as part of the Case Study for each question. We hope this document will help you narrow down the Code information you should familiarize yourself.
